Superintendent of Schools

Annette C. Giaquinto  
Assistant Superintendent

Vickie Tomasco  
School Business Administrator

## **CARE FOR STUDENTS**

Promoting a healthy school environment will benefit all students, including your child. Following the steps listed below will reduce the number of days your child will miss school due to illness or contact with children who have come to school sick. This will also result in less time away from work for parents/guardians.

### **PLEASE KEEP YOUR CHILD HOME FROM SCHOOL (AND SEEK MEDICAL ATTENTION AS NEEDED) IF:**

He/she vomited and/or had diarrhea during the night or in the morning before school. They should be symptom free for 24 hours before returning to school.

He/she has a temperature of 100 degrees or more during the night or in the morning. They should have a normal temp for 24 hours (without medicine to temporarily bring it down) before returning to school.

He/she has an untreated and/or undiagnosed rash. The student will require a note from the Doctor that states they are not contagious upon return to school.

He/she wakes up with red, "crusty", drainage/tearing eye. The student will require a note from the Doctor that states they are not contagious upon return to school.

He/she has any other signs/symptoms of illness.

He/she has been sent home from school for any of the above reasons.

We appreciate your help in following these instructions. Together, we can aid in minimizing the spread of illness in our school.
