

## **Annual Asbestos Notification For School Year 2023-2024**

Galloway Township Public Schools  
101 South Reeds Road  
Galloway, New Jersey 08205

Dear Parent, Guardian, or Staff Member:

In accordance with the Asbestos Hazard Emergency Response (AHERA) 40 CFR 763 requires all schools from pre-K to Grade 12 to conduct inspections to determine if they contain Asbestos Containing Building Materials (ACBM). If they do, the ACBM must be categorized according to the type of material, its location, condition, and its potential for future damage and a detailed Asbestos Management Plan must be developed. The Management Plan details the inspection findings, and outlines the response actions the Galloway Township Board of Education has implemented.

To accomplish these goals, the District has on file an Asbestos Management Plan which is located in the main office of each building. The provisions of the plan are being implemented in a timely and on-going fashion. The Galloway Township Board of Education's goal is to provide a safe and healthy facility for all students, employees and visitors.

The Asbestos Management Plans with inspection reports are available for your review upon request.

Thank you.
