

Mental Health Specialist Pre-Observation Planning

Please provide information about your role as a Mental Health Specialist using the guiding questions provided.

Using the *Evaluation Rubric for Mental Health Specialists*, please identify the standards within Domains 2 & 3 that you believe will be observed. In what ways do you believe these standards align to your practice?

What important information should the observer know prior to attending the observation? Are there any areas of concern that the administrator should know?

Prior to the observation, what efforts have been made with the students, staff, family, or school community with whom you are working to improve the current conditions.

Any other areas of importance that you wanted to share?
